Some thoughts..

I have been hoping to use this space to write some sort of article or column, with some point or information, however, after much thought and a lot of time, nothing has come to me yet. For the last couple months I have been feeling really drained

happiness, I think that is far from the truth, but those who have power still manage to make those who don't, unable to live comfortably, usually causing a great deal of unhappiness. How really can anyone be truly happy, when there are people dying under your feet, and on your doorstep. How can one person be happy, when all those around them are dying in the streets and

simply dissappear in not to long of a time period. (not that this is such a new concept, but I find it becoming even more realistic.) We tend to deny these possibilities, and well maybe we won't see it in any of our lifetimes, yet in the scope time and history etc... we have done so much un repairable damage, in such a short periods of time, and there seems to be no immediate hope of turning that around, so how can our planet possible survive in a healthy way for to long.? So I've taken to watching chanel 13 public tv nature programs in an attempt to keep myself sane, and relize that there are some truly beautiful places left in this world, and I think that is only makes sense that we try to enjoy then, and take advantage of their existance, while we still can. I read that children today are so detached from nature, (more so even than a generation of my age, and I'm talking growing up in the 70's,) people growing up in the 80's and '90's are so out of touch with nature, they do not play outside anymore, using their own creativity, building things in their yards (if people even have yards, as around here, we don't, which I think is a serious problem in all people turning into zombies.) anyway, kids used to play the mud, snow, rain, dirt, trees, whatever.... and make up games and there was a high level of creativity encouraged in that kind of play. Today though, we have nintendo and video games, computers and video machines, and well all of these are not bad things, and all can be used to a certain level of educational advantages, however... today's children are so wrapped up in this new computer age, that they have no concept of nature at all. I really feel especially bad for people who live in an area where they can not access any natural environments (Central Park is nice, but it just doesn't count), but even those who can access it, ignore it. Are we going to end up living in completely electronic/ computer controlled environments, when we can even channel in our weather, inside our bubbles of plastic, since we've already destroyed our natural ozone layers and environments. Our lives are going to become, if they haven't already completely artificial. I find this to be a really scary thought. (I guess my mind isn't so blank after all.)-Chris

Some thoughts..

I have been hoping to use this space to write some sort of article or column, with some point or information, however, after much thought and a lot of time, nothing has come to me yet. For the last couple months I have been feeling really drained and not particularly motivated or inspired. I feel as if I am just a zombie wandering the streets, in a daily routine, with no connection to what I am doing. But then in some ways, it seems that is all we really are. We spend so much time rushing about, and after training ourselves not to look at anyone on the street, not to make any eye contact, and always rushing about in an incredible hurry, which causes utter frustration, as everyone in this city is doing the same thing... it does become very cold and void of emotions. We have been taught to conceal our true emotions, anyway. So as everyone is rushing about trying to keep to themselves and get their business done, so as to hope to have even a passing minute to acutlly stop and enjoy themselves, but the question is do people really ever enjoy themselves? Are we enjoying ourselves when we work xamount of hours a week, usually to much, to just barely get by. How many people actually enjoy whatever job they have? Then how many people actually have any time when they are done with work to do things that they want to do? Who can afford to do what they want to either? (especially at this point in time, when our economy is getting so bad, that we can not even afford to live,period, if we're lucky enough to even have a job.) So in a place that is built around power and money and greed, how can those who have nothing, and no hopes of it, be truly happy. Not that money equals

happiness, I think that is far from the truth, but those who have power still manage to make those who don't, unable to live comfortably, usually causing a great deal of unhappiness. How really can anyone be truly happy, when there are people dying under your feet, and on your doorstep. How can one person be happy, when all those around them are dying in the streets and hoping to get some food and get by that one day, and people have no chance to even do what they want to, because other people are in control. What sort of enviornment is this? And how is it that we have done this to ourselves. How is it that in our wonderful system of freedom and equality and all that bullshit, that only a few people actually have that, most people live pay check to pay check and many can not even survive. How is it that we have allowed ourselves to get into such a situation. Do we really truly not care at all about other human beings in the least? Oh, well in this enviornment at least, we have been taught, or forced to ignore these issues, to just mind our own business and try to survive ourselves. For if we concerned ourselves with everyone's problems, we would then to be dragged down, and be unable to survive. However, doesn't it seem that there is a problem with the initial point where people are forced into these situations in the first place. And isn't there something morally wrong with simply ignoring everyone around you, ignoring people starving, dying, with no place to sleep and no food to eat. How can this be ignored? Does ignoring the problems, or avoiding them really make it get it any better? NO, I don't think it does..

So I've come to this conclusion that our world is going to

simply dissappear in not to long of a time period. (not that this is such a new concept, but I find it becoming even more realistic.) We tend to deny these possibilities, and well maybe we won't see it in any of our lifetimes, yet in the scope time and history etc... we have done so much un repairable damage, in such a short periods of time, and there seems to be no immediate hope of turning that around, so how can our planet possible survive in a healthy way for to long? RECYCLING TIPS

-STYROFOAM: will never degrade. Try to find a substitute and reuse any "peanuts" packaging.

-PHONE BOOKS: can be recycled with newsprint (curbside in NYC)

-MAGAZINES: reuse them by passing them onto a friend, or donate to some place or organization. Recycle at the least.

-CARBOARD BOXES: flatten & tie them up, some recycling centers accept them, if not try grocery chains, they have balers & reclaim all cardboard.

ENVIORNMENTAL INFO.

ORGANIC COMPOSTING

COMPOSTING: Living organisms "eat" organic material & turn it into a rich, crumbly soil called humus. Nature is one large composting system.

FOOD SCRAPS: Turn into natural, rich fertilizer (except meat, which attracts insects.) which will nourish soil as it decomposes.

YARD WASTE: Is not garbage & it can be recycled, as compost or mulch, which put the nutrients back into the earth, replenishing itself.

PETS/ FLEAS

Flea collars are a problem, because over 50 million are thrown away each year, and also the pesticides on them are potentially dangerous to your pets. they can cause permanent nerve damage or cancer as the pet absorbs into their skin.

ALTERNATIVES:

1)Citrus Oil sprays can be purchased or you can make your own with orange or grapefruit SKINS (only). Put them through a blender & squeeze in water, after

-STYROFOAM: will never degrade. Try to find a substitute and reuse any "peanuts" packaging.

-PHONE BOOKS: can be recycled with newsprint (curbside in NYC)

-MAGAZINES: reuse them by passing them onto a friend, or donate to some place or organization. Recycle at the least.

-CARBOARD BOXES: flatten & tie them up, some recycling centers accept them, if not try grocery chains, they have balers & reclaim all cardboard.

-BROWN PAPER BAGS: can be recycled with corrugated cardboard

-CHRISTMAS TREES: some communities collect trees and run them through a "chipper" turning them into mulch.. clean tree of all non organic items first. Trees can also be chopped for fire wood after Christmas Consider Precycling. Use a living tree, in a pot, and plant it after use.

-CLOTHES: donate second hand clothes to a non-profit organization (Goodwill/ Salvation Army, thrift stores) or a homeless shelter, which will help them out.. Worn out clothes that are no longer usable, can be turned into rags for kitchen/ bathroom cleaning instead of disposable towels, wash and then reuse..

-JUNK MAIL: to reduce the amount of junk mail you get by 75% write to Mail Preference Service/ Direct Marketing Assoc./ 11 W. 42 St./ POB 3861/ NY NY 10163-3861.

-TAMPONS: use ones with paper applicators, over plastic. Better yet, use ones with out applicators - there is less garbage and it's more natural.

AROUND THE KITCHEN:

REUSABLE CONTAINERS- for food storage, instead of aluminum or plastic wrap.

USE UNBLEACHED COFFEE FILTERS- bleached paper products create dioxin, a deadly toxic, dumped into waterways. for info on unbleached paper products write Rockline Inc. POB 1007/ Sheboygan WI 53082. **USE RAGS:** to wipe up spills etc. & reuse.

-WATER (WASTES): Conserve water when/wherever possible. A running faucet uses 3-5 gallons a minute. Consider this: **BRUSHING TEETH** wet & rinse brush, this will use 1/2 gallon, saving 9 gallons if left running. **SHAVING** fill basin, will use 1 gallon, instead of 14 gallons. **WASHING DISHES** fill basin, will use 5 gallons, saving 25 gallons.

FOOD SCRAPS: Turn into natural, rich fertilizer (except meat, which attracts insects.) which will nourish soil as it decomposes.

YARD WASTE: Is not garbage & it can be recycled, as compost or mulch, which put the nutrients back into the earth, replenishing itself.

HOW IT WORKS: Start with a layer of dry stuff (like straw) then add wet stuff (like food) . continue to layer & mix the pile weekly so air circulates and add water to keep damp. A complete cycle takes 1-4 months.

RESULT: Fertilizer for you garden and saving landfill space. If you don't have a garden, community or municipal compost sites are usually available.

MORE INFORMATION: For a composting factsheet send a SASE to Berkeley Ecology Center/ 2530 San Pablo Ave./ Berkeley CA 94702.

HELP THE ENVIORNMENT...

SNIP 6 PACK RINGS: They often end up in water and can trap marine animals (they appear invisible) & can strangle, drowning or starve them. Snip them at home, and especially around water/ beaches, pick them up & or tear them apart.

PHOSPHATES: found in DETERGENTS have ecological side effects. Phosphates empty into streams and lakes, causing "algae bloom: (over fertilization.) When algae dies naturally it uses a huge amount of oxygen, needed by other plants and marine life which can lead a lake or stream to die.

WHAT TO DO: 1) Use less detergent (many products have more than necessary.). 2) substitute (in soft water) soap powder (in hard water) combination of soap & washing soda.

PETS/ FLEAS

Flea collars are a problem, because over 50 million are thrown away each year, and also the pesticides on them are potentially dangerous to your pets. they can cause permanent nerve damage or cancer as the pet absorbs into their skin.

Put them through a blender & simmer in water. after cooled brush through fur. 2) brewers yeast & garlic in pets food (fleas hate it.) 3) look for products with methoprene, a growth inhibitor of flea larvae development.

RECON

STRUCTION RECORDS

is the brand new, independent, volunteer run record store in New York City. The store carries all forms of punk and hardcore, as well as general indie, industrial, metal, fanzines, books, shirts, and as large a used section as we can offer, all at non-ripoff record store prices. But we need your help:

- We need donations of used records. This is one of the most important means for us to raise quick cash. Anything you've got will be welcome: 7"s or LPs, CDs or cassettes, ANYTHING helps. CDs are of equal importance - we want to start a healthy used CD section in order to combat compact disk price gouging in other NYC record stores.

-We're asking as many labels as possible to extend to us a one-time consignment order to help us get on our feet. If your label or any label you have a contact with can help us, please get in touch.

- We also need donations of posters, music related books, fanzines, videos, t-shirts, lightbulbs, toilet paper, and time. If you want to volunteer, please get in touch as soon as possible.

216 E. 6th st. between 2nd & 3rd Ave. (212) 505-0965 - ask for Fred Alva or Charles Maggio.

A FEW MORE FANZINE REVIEWS

THE IG OBSERVER #2 18421 Lynton Rd/ Shaker Hts. OH 44122) Taken from a high school newspaper and added to. Some political natured articles on rape, white supremacy, patriotism, political correctness. A bit odd, with a strange sense of familiar humor. **BRIGAD SUBVERSIVA #7** (\$1 to Ricardo Pinoh/ Apartado Postal 13-441/ CP 0350/ Mexico DF) MI espanol es mal, but from what I understand, this is a political punk orientated Spanish zine, printed on recycled newspaper, articles on vegetarianism, Palestine & Liberation (of?), plus some bands interviews and well it looks pretty good.

HAPPY THRASHER #14 (\$1 to Tin-ear POB 2246/ Anaslime CA 92814) Already a few months old, this is a good issue with LOTS of reviews (zines, records...) plus an article on scams and inv. w/ citizen Fish, & SM Steppenwolf.

EXCUSE ME COULD I HAVE MY SOUL BACK? (\$1ppd to ATH c/o Terence Bishop/ 2177 Stewart dr./ Hatfield PA 19440) A small booklet of poetry. I don't like poetry, so I can't even judge them. Not of much interest, and a lot of wasted space.

CHOKE #2 (POB 267/ Otisville MI 48463) This one is meant to open up communication w/ in the area (MI) and offers free classifieds and free ads (for trade) info on local club (capital theater) some personal rants, vegetarian info. The layouts are messy and over all it could use some help, but it seems to be a good attempt to bring people together.

SITHLORD (no address) This really has no point. I can look through the whole thing, even try to read it, but I can't focus on all the tid-bit clippings and lot's of Star Wars stuff, that makes no sense. This is self titled "artless of destruction." ok, whatever.

XINEMA POBRESA #6 (POB 105/ Brandon FL 33509-0105) A film 'zine with Hollywood rants, reviews, scams and advice for independent / underground film. people.. **SO BE IT #2 3/4** (2 stamps to Nick 2077 North Dr. Seaford NY 11783) Moving into interviews this issue, w/ Mike Bullshit on GO! (it's 1 year old) & Kingpin. Plus a few of the usual tid-bits of info. **TOXIC FLYER #5** (\$1.25 to Billy Whiffeld/ POB 39158/ Baltimore MD 21212) This fan-photo zine, only has 3 pages of photos, and they're blurred out in xerox reproduction. Really simple and basic interview w/ Pollent Art, The Barbed Wire Dolls (who have changed immensely and make them selves sound like idiot band girls) and some other bands info taken from promo sheets. **SON OF FUN WITH DAD #5** (\$1 POB 4665/ Toledo OH 43620) This is a good (big) issue of anarchist based thought w/ various writings of thoughts an impressions of the "scene", lots of punk comics, and a lot of tid bits, clippings etc. Interviews w/ Social Outcast, UK Subs (long one). All together, pretty good, and there's a lot of stuff to read and look at.

SHADOW #20 (Oct/Nov) (\$1ppd to POB 20290/ NY NY 10009) Continued coverage of the LES/ squat - anarchist community. This issue focuses on the recent eviction of Dinkinsville and the Tompkins bandshell demolition, squatters march, prochoice life chain and Peoples Park in Berkeley. **CLASS WAR** (\$1.50ppd to POB 8277/ MPLS MN 55408) The latest from Englands gossip and scandal tabloid, with a special US Class war section., from the Twin Cities Class war. **The Bald Puppy #1** (address illegible) A premier issue so unorganized and poorly put together that I could barely read it. / some poems, some reviews, some scribbled on pages.

FANZINE REVIEWS

QORYQ #16/17...PO Box 45/ 02-792 Warszawa 78 RP/Poland. This is probably THE zine of Poland. Though it's in Polish, and I can't read it (I believe there is an English version) it's well done and quite a big issue. Sort of the MRR of Poland. This issue has interviews with Fugazi, MDC, Oi Polloi, Raising Hell, So Much Hate. I'd recommend trying to get ahold of the English copy.

Balance of Terror #2 \$1.50ppd 384 Goward Rd./ victoria BC/ Canda V8x-3X3.... This zine is dedicated purely to all Death Metal. Though I'm not really into death metal, I do like the way this zine focuses on up and coming new bands, by doing bio/ review/ info things on each band, turning it almost into a catalog of new bands. Interesting approach.

QX #9... Aprox. \$5ppd. toc/o Joachim Hiller/ Joseph-Boismard/ Weg 5/4300 Essen 14/ Germany.... This great German zine features Todd Radict on the cover and comes with a 7" with songs from SFA, Necracedia, Doomwatch & Submachine ("Lube Job", previously released on Rust Records from Pittsburgh PA). So it makes me feel kinda at home. Also there are interviews with Chumbawamba, Subway Arts, Majority of One, Intricate, Poison Idea, Radicts, Bong- water, Econochrist and reviews and various other sections (in German). Regardless, the layouts and photos are so good, it's still fun to look at.

So Be It Zeen #2 1/2... SASE to 2077 North Dr./ Seaford NY 11783.... This one is short, at one page back to just hand written tidbits of gossip and news of the NYC area scene.

Radio Riot #4 (Oct.) SASE to POB 4761/ Highland Park NJ 08904. This is a good 1 pager basically covering news, gossip and other general dirt revolving around the NYC scene. (ABC NO RIO, Jersey Skins, things that piss Matt off....etc.) It gives a feeling from several different factions and it's fun to read, also some reviews. **For Your Skull #23** 25¢ & 1 stamp to PO box 481051/ LA CA 90048. This is made up of some artwork and comics, that are good and well done. When doing a zine of comic art, it really makes it good to see well done work.... like this.

Punk Pals 3 29c stamps to c/o Nau-Ter POB 80292/ Austin TX 78718-0292. So Punk Pals has moved to Texas and has a slightly different look to it now. The classifieds are pasted over background images, giving it a more visual flair. As before, this has listings of only people who are looking for penpals. Listing are free, copies are 3 stamps.

Profane Existence #11/12 \$3ppd to POB 8277/ Mpls MN 55408. After a huge delay of 6 months, the PE crew are back with a double issue, full force, entitled "Making Punk a Threat Again". It's a damn good issue, packed with good stuff, and full of energy. Covers the land struggles from Tompkins sq. Park to Berkely, news of anarchsit type happenings throughout the world, intv. w/ Martin Sprouse, Rorschach, Citizen fish, Anacrust, Tim Yohannon - MRR, & Jackie Weltman on femanism and lesbianism. Plus of course th usual letters columns and reviews, and tons of them, to make up for lost time. For anyone who's never seen PE, it's a must see/ read.... "sheer anarchy, punk and chaos!"

EXCEDRA (\$1.25 ppd to POB 422937/ SF CA 94142-2937) Angry writings from an educated point of view on sexual abuse, change and revolution, our declaration of independence, a good lengthy informative article on forms of gov't., (anarchist - communism) & the state of the US today, animal abuses (chart), good in for, also interview w/ Kent Mc Clard (No Answers Fanzine), police surveillance, progress to what? disposable society, poetry (good, of a political nature), sexism relations to specism - as object of abuse - all form women's perspectives that all lead to thought provoking even challenged thinking. Highly recommended!!

Whatever #2 2 29c stamps, to 539 W. Doty St./ Madison WI 53703. This has some basic info into anarchy, veganism, and leaving society. Plus intv. w/ Naked Aggression, All You Can B some reviews and a poetry page.

FOE #14, Free to 145 S. Chestnut St. #5/ Bath PA 18014. This 6 pager has an intv. w/ Sick and a short one with Napalm Death plus record reviews.

Masochistic Submission #1 \$1.25 to 8719-80 Ave. Edmonton/ AB T6C 0T4 Canada. Intv. v (Calif), Sockeye, Moral Crux, Apocalypse, & Oi Polloi (from another zine). Also some info on rights & contact address, uses of hemp and problems of spirituality. A lot of the stuff is re material and a lot of it is handwritten and there is a strange tone to it overall which is kind of an **Mad World Survival Guide #4** (Nov./Dec.) \$1.50 POB 791377/ New Orleans LA 70179. This is booklet of various anarchist ideas and tactics focusing on direct action, general electric, prod and consumption, city benches, a comic from Ecodefense, Jesse Helms, class war, edu sections on upcoming events, cop watch, zine & book reviews, plus contact addresses. All together for a good zine encouraging networking and providing ideas for fighting "the system." **Stark Reality #8** \$1 1206 Monroe Ave./ S. Milwaukee WI 53172. There are a couple articles about how the planet is doomed & we should therefore not be pseudo-enviornmentalists and recyle or anything else, which I find to be sort of an ignorant attitude. There are various other personal sarcastic rants and an interview w/ Life is a Joke, which I think is a zine, plus some other crazy stuff.

Ely Fire Fly #10 (Sept.) \$5 (6 month Subs.) 413 N. 10 Ave. E/ Ely MN 55731. This is a great monthly newsletter on alternative lifestyles / politics in an informative way. This issue covers abortion issue w/ various quotes from pro-choice women and the counter, Mining life, cruelty free products, plus letters & advice sections.

Ely Fire Fly #11 (Oct.) This issue covers the day Kids For Saving The Earth cleaned up roadside garbage, women wages for housework, Agnes Smedley - a revolutionary woman, Vermilian Aviation, a counter perspective on Christopher Columbus and the usual features. As usual I recomend this publication.

F@HOU #1 \$2.29 ppd 3837 Brentwood Rd. Atp F/ Brentwood West/ Raleigh NC 27604. Pretty good first issue. Intv. w/ Media children, Polyester Cowboys, Aftermath, Hideous Mangleus, plus anger against cops, Bush's new world order and collage art, and squatting, poetry and reviews. It's a bit expensive, but does sport free ads!

BAYOU LA ROSE #36 (\$1.50 wesley everest Ed. Project/ 302 N "J" St. #3/ Tacoma WA 98403 - regular subs. 4 issues for \$7.50) "International Journal of working class, ecological, anarchism and human rights activism" is the self titled explanation or categorization. This is a sample issue (smaller) covering 500 year anniversary of Columbus, New World Order, **HAPPY THRASHER #14** (\$1 to Tin-ear POB 2246/ Anaslime CA 92814) Already a few months old, this is a good issue with LOTS of reviews (zines, records....) plus an article on scams and intv. w/ Citizen Fish, & SM Steppenwolf.

Following reviews by Robin Perne

Stark Reality #7 (2 stamps to 1206 Monroe Av./ s. Milw. WI 53172) A small zine seeming mroe like a journal than anything informative, and lacking intelligence at that. brief interview with Sockeye.

Skidge #5 (76 Sappire LN/ Franklin Park NJ 08823) Five pages of not so interesting writings. Point out the obvious and seems to be used for personal communication. Local updates and thoughts, including a list of seven cool places to sit in Princeton NJ.

Sole Vibration #1 (\$.75ppd to John 916 Margret St/ St. Paul MN 55106) A pitiful zine from Oregon "dedicated to the preservation of 70's disco." With "make me funky" fashion tips, the new funky horoscope and Q & A with Farrah Fawcette. A good laugh.

Profane Existence #11/12 \$3ppd to POB 8277/ Mpls MN 55408. After a huge delay of 6 months, the PE crew are back with a double issue, full force, entitled "Making Punk a Threat Again". It's a damn good issue, packed with good stuff, and full of energy. Covers the land struggles from Tompkins sq. Park to Berkely, news of anarchist type happenings throughout the world, intv. w/ Martin Sprouse, Rorschach, Citizen fish, Anacrust, Tim Yohannon - MRR, & Jackie Weltman on feminism and lesbianism. Plus of course the usual letters columns and reviews, and tons of them, to make up for lost time. For anyone who's never seen PE, it's a must see/ read.... "sheer anarchy, punk and chaos!"
EXCEDRA (\$1.25 ppd to POB 422937/ SF CA 94142-2937) Angry writings from an educated point of view on sexual abuse, change and revolution, our declaration of independence, a good lengthy informative article on forms of gov't., (anarchist - communism) & the state of the US today, animal abuses (chart), good in for, also interview w/ Kent Mc Clard (No Answers Fanzine), police surveillance, progress to what? disposable society, poetry (good, of a political nature), sexism relations to specism - as object of abuse - all form women's perspectives that all lead to thought provoking even challenged thinking. Highly recommended!!

RECORD REVIEWS

MINDROT "Endeavor" 7" ep

Finally some vinyl from these So. Calif. Grind-Doom-metalers. They've moved much more towards death metal with a sound similar to the Entombed. Way heavy grind metal with a political edge. There are only 500 presses of this ep, so quite likely it's already hard to find. (Angry Thoreauan POB 2246/Anaheim CA 92814)

DISORDER "More Noise" 7" ep.

Punk rock with that fast grungy/ thrashy Disorder sound. This is a live recording (but I don't know from where, or when, cause it doesn't say.) Regardless, the live quality is good and it's good material all from the split lp w/ Kafka Process. (\$3ppd to 4611 1/ 2 152nd St./ Lawndale CA 90260.)

APPLE "Neither Victims Nor Executioners" 7"

This is a vinyl release of old unreleased studio recordings (demo tape) from 1986. As one of my favorite bands, this is cool to have, since I never got the demo. Peace punky, folksy political tunes from NYC, with excellent (female) vocals from Jae. Includes "Blowing in the Wind" and a fuck off song to clubs, money & close mindedness. (Broken Rekids POB 460402/ SF CA 94146)

SAM BLACK CHURCH "Unincorporated" 7"

From Boston comes Hardcore, Bad Brains style. I remembered them sounding a lot like the Bad Brains, but I don't remember it being this strong. The vocals especially are very much HR's style. Musically more thrashy and fast, but still holding a strong overall Bad Brains feel. (Grinding Halt POB 737/ Kendall sq./ Cambridge 02142.)

ONLY LIVING WITNESS 7"

Very much on the metal side, crossed with rock metal and thrash. Heavy on the guitar leads, it really reminds me of the "metal oh so hard" core". background music at the Ritz during one of the HC fiascos.

SARCASM 7" ep.

Originally this was released as a demo tape from this English band, but now is released on vinyl, out of Brasil. This is a really good one, in the veins of crusty noise thrash, crossing ENT and Disorder with

by the way #11 (Oct.) This issue covers the day kids for saving the earth, cleaned up roadside garbage, women wages for housework, Agnes Smedley - a revolutionary woman, Vermilian Aviation, a counter perspective on Christopher Columbus and the usual features. As usual I recommend this publication.

F@HQU #1 \$2.29 ppd 3837 Brentwood Rd. Atp F/ Brentwood West/ Raleigh NC 27604. Pretty good first issue. Intv. w/ Media children, Polyester Cowboys, Aftermath, Hideous Manglous, plus anger against cops, Bush's new world order and collage art, and squatting, poetry and reviews. It's a bit expensive, but does sport free ads!

BAYOU LA ROSE #36 (\$1.50 wesley everest Ed. Project/ 302 N "J" St. #3/ Tacoma WA 98403 - regular subs. 4 issues for \$7.50) "International Journal of working class, ecological, anarchism and human rights activism" is the self titled explanation or categorization. This is a sample issue (smaller) covering 500 year anniversary of Columbus, New World Order, **HAPPY THRASHER #14** (\$1 to Tin-ear POB 2246/ Anaslime CA 92814) Already a few months old, this is a good issue with LOTS of reviews (zines, records....) plus an article on scams and intv. w/ Citizen Fish, & SM Steppenwolf.

Following reviews by Robin Perne

Satan On A Stick #3 (\$1.75 to POB 6387/ Annapolis MD 21401) Zine of thoughts, essays and bad poetry. entertaining interview with self proclaimed satan.

Stark Reality #7 (2 stamps to 1206 Monroe Av./ s. Milw. WI 53172) A small zine seeming more like a journal than anything informative, and lacking intelligence at that. brief interview with Sockeye.

Skidge #5 (76 Sappire LN/ Franklin Park NJ 08823) Five pages of not so interesting writings. Point out the obvious and seems to be used for personal communication. Local updates and thoughts, including a list of seven cool places to sit in Princeton NJ.

Sole Vibration #1 (\$.75ppd to John 916 Margret St./ St. Paul MN 55106) A pitiful zine from Oregon "dedicated to the preservation of 70's disco." With "make me funky" fashion tips, the new funky horoscope and Q & A with Farrah Fawcette. A good laugh.

Breakdown (multicore zine) #5 (Rico mendel/ Schuhgasse 13/ 6330 Wetzlar/ Germany) News, comix, reviews and gig dates. Interviews w/ Mutant Gods, Death Squad and Agathodes - However, all in German, but it looks pretty good.

Flower #2 (Neil 302 Laurie Ct./ Sillwater MN 55082) An "in between zine" consisting of poetry and art. free but stamps and contributions are appreciated.

Bouncing Casket #3 (\$1.50 ppd to 104 Wilkinson/ East Prairie/ MO 63845) An Okay zine. Interviews with Lucy Brown, and Parasites. scenes reports from Philly, Memphis and Missouri and some reviews.

SOUND BITE HOUSE "Dinner With Julia" 7" ep.

This is upbeat post HC, scum/ grunge rock, kind alike the Dead Boys style. Kind of rockin and boppy. (Not quite what I expected after the first 7" review of raging HC.) (\$3ppd to POB 912/ E. Northport NY 11731.)

EXCREMENT OF WAR "The Waste... & the Greed..." 7"

This is definatly one of the better records to come around here lately!! Heavy grinding music in the style of Discharge/ Doom. Need I say more? It's really good in that it's total Discharge style, yet holds it's own. Am I making any sense? Well it's fucking good, and well worth checking out!. (POB 178/ coventry/ CV1 5TG/ UK)

CONFRONTATION 7"

This is the second 7" from (one of) California's Grindcore/ metal/ thrash bands. It's way on the metal side and dosen't leave me quite with the same feeling of the first and it's lacking the heavyness in the low recording that would give it an extra punch. Personally I'm so burnt out on grindcore, that it's all turning into background noise. Comes with good packageing including a fold out poster. (\$3ppd Tribal War Records POB 20012/ Tom. Sq. Stn./ NY NY 10009)

2000DS "Crowborough" 7"

This band has kind of an odd concept - they're from Engand, but they travel all around Europe in a bus, picking up people to be in the band as they go. (hence the name 2000 DS.) This record is actually really good, it doesn't fit into any clear category - but has a really strong English feel to it, made even stornger by the strong English accents. A twist of old UK peace punk w/ some ska/ reggae and some up beat pure English music. & humor It has a similar feeling to me of Citizen Fish, but besides the reggae song, dosen't really sound like them, its a feeling. It's unique, and it's good.

APOSTATES 7"

This is a great release of 3 great songs (burning world of hate, for your country & going up in a puff of smoke) finally! On a very melodic, folksy political side yet with the ability to get inside you and leave you with a great feeling. They've had continuous compari-

SARCASM 7" ep

Originally this was released as a demo tape from this English band, but now is released on vinyl, out of Brasil. This is a really good one, in the veins of crusty noise thrash, crossing ENT and Disorder with say Oi Polloi vocals gone insane. Hey, it met the approval of the 3 person grindcore jury in my house, who are pretty hard to please, so it must be good!!! \$5ppd to Rotherness Records c/o Nelson Augusto dos Santos/ Caixa Postal 1197 - Ag. central/ 01059/ Sao Paulo SP Brasil.

NIBLICK HENBANE "What's Your Deal" 7"

From this scary looking bunch of skinheads, comes a very English Oi! melodic type sound. They sing about toughness in the streets (which kinda turned me off) but also speak out against racism. Along the lines of Oi Records sound. Better sound quality would help in making it stand out with the green splatter vinyl. (Headache records 53 Myrtle Ave./ Midland park NJ 07432.)

GOLPE JUSTO 7"

It means "justified hit" in Spanish. From Puerto Rico comes a serious hardcore band. Spaz compares it to Sick of It All, & I'm not the biggest fan of their's so I don't know, but this is good solid pure, HARDCORE, with a hard edge. All in spanish, but the political edged lyrics come with translations. (Computer Crime Records 74 Osborne Ave./ Norwalk CT. 06855)

NAKED AGGRESSION 7"

This really caught my attention, as I wasn't expecting this. First off there's female vocals put to an old style hardcore, of a Calif. style, meaning it's not "hard". It's nearly an indescribable sound, which in this case makes it even better. Political natured, with a touch of the Avengers sound, and they're pretty damn good!! (539 Doty St./ Madison WI 53703.)

ALL ABOUT HEROIN 7"

Along the lines of old DC style/ post HC. Punchy music, with sung (DC style) vocals. Parts get heavy & remind me slightly of Rites of Spring. It has that emo-edge/ or sound to it., complete with personal/ emo lyrics (Vinyl communications POB 8623/ Chula Vista CA 02012.)

SOUND BITE HOUSE "Dinner With Julia" 7" ep

This is upbeat post HC, scum/ grunge rock, kind alike the Dead Boys style. Kind of rockin and boppy. (Not quite what I expected after the first 7" review of raging HC.) (\$3ppd to POB 912/ E. Northport NY 11731.)

This is a great release of 3 great songs (burning world of hate, for your country & going up in a puff of smoke) finally! On a very melodic, folky political side yet with the ability to get inside you and leave you with a great feeling. They've had continuous comparisons to the Subhumans, and though this doesn't sound like them, the feeling is there. I have a hard time describing those things which I like the most, so let me just say, it's really good and I recommend it. Great packaging and a poster also. (Vinyl Communications POB 8623/ Chula Vista CA 91912)

DRONE "Voice of Reason" 7"

There is something very offbeat & monotonous about this. the guitar is "noisy" and the vocals are screamed in short bursts. Reminds me of Mighty sphincter & overall is more on the heavy industrial side. I just find it really disturbing. (Vinyl Communications. POB 8623/ Chula Vista CA 91912)

BURNING BUSH "Revolution Without Guns Pt. 1" 7"

This is a melodic, folky, psych.. 60's type of band with well sung female vocals. One side is more along Fuzzbox Psychodelia and then moves more subdued, slower melody. Pleasant listening. (Vinyl Communications. POB 8623/ Chula Vista CA 91912)

NECKBRACE 7"

2 songs here on the rockin' side with rap style vocals. The hardcore ness of it is the fast power core but more with posi youth NY style vocals. Cheesy cover of an amp and the name is unreadable. Doesn't really rock my boat. (\$3.50 ppd to Body Cast. Rec. POB 6174/ MPLS MN 55406)

RESIST "The Solution" lp

As rare as full length lp's of great new punk bands are, comes this gem of full blasting energy and raging upbeat hardcore, with a political punk edge. This record gives hope that there are still new great bands surfacing and this proves to be my favorite release in awhile. I expect these guys are gonna become quite popular through this one, as well they should! This is a great album, and gets better with each listen. Highly recommended. (on white vinyl, comes with a booklet and a bunch of stickers.) (\$6ppd to Ward Young 1951 Burenside/ POB 1654/ Portland OR 97709)
